Hauled Down.

The Loudon Star has taken down Gen. John C. Brown's name from its masthead. The Star is independent in politics, under the new management. Mr. Harrison, in his salutatory, says he will make a "specialty of ventilating imbecility in office at home or abroad. If he only does the first be will have his hands full and his paper too.

Preparatory University School.

We are gratified to learn that the Trustees of the East Tennessee University, have engaged the services of a very competent teacher for their Preparatory Department. Mr. Charles S. Newman, educated at the University of Virginia, and for two years past, a successful toxels er in the Male Academy at Columbia, Tennessee, has accepted the position, and will enter on his duties here next week.

German Festivities.

The Knoxville Turn Verein will give a grand invitation mornlight festival and concert at Mr. J. F. Haupt's garden on Monday evening. September 12th. Vocal and instrumental music will lend their melody to make the time pass pleasantly. Those who have attended others of a similar nature know that if the weather is favorable a pleasant time will be had. We will publish the programme. &c., in due time,

Grain Drill.

We call attention to the advertisement of W. L. Buckingham, of Baltimore, Maryland, one. of the heaviest dealers in agricultural implements in the country. This is one of the best of farming machines, and is known as the "Farmor's Favorite." It is the only Grain Drill baying a double set of discributors, and has a most convenient fertilizing attachment. Bickford & Huffman are partners and proprietors. The prices have been reduced to the scale charged before the war.

Consus.

Capt. Leinart requests us to say that if any person in Knoxville has not been called upon by the census taker he would be glad to have them report the fact to him at the court house on Wednesday and Thursday next, . We hope all persons overlooked, if any have been, will take pains to report, as we want to show as large u population for the city as possible. It is important, for many reasons, that we should interest ourselves in this matter and see that every inhabitant is enrolled.

Signs of the Zodiac.

A philosopher in the West, grown into admiration of the Cherry Poctoral, write- Dr. Ayer for instructions under which sign he shall be bled, which blistered, and which vomited, and under which he shall take Ayer's Pills for an affection of the liver ; also, under which sign his wife should commence to take the Sarsaparilla for her ailment. He adds that he aiready knows to wean his calves under Tauras, change his pies in Scorpie, cut his bair in Aries, and soak his feet in Pisces or Acquarius as their condi-

tion requires. Schoolmasters, start for Wisconsin, and visit Mr. Ham when you got there. - Lowell Duily

Dried Fruits.

We notice in the nursket reports of the New York Standard, a report of the sale of the first arrival of peeled Southern peaches of the crop of 1870. They were shipped to Mesars, J. M. Atwater & Bro., 61 Pearl street, and were sold for twenty cents per pound. The market price was from 15 to 18c. The same report complains of the grade of dried apples sont from the South, they being dark and poor and slow sale. Choice bright apples, fine out and slived, are in temand and bring high prices. As our fruit rop is abundant, we invite the attention of our armers to the above. With proper care in trying the fruit, our people can realize handomely on all they ship. If they ship to the ight parties in New York, their dried fruit will ay a hand-ome profit. Let them try flic hoh-e ove named

of the district have been circulating a call for a WEDNESDAY. SEPT. 7, 1870 Congressional convention to meet here on next Saturday.

For some days, the organ and its neighbor have been publishing a call for a county convention to nominate delegates to the district convention. The county convention met yester-day, and was one of the most decided fizzles we have ever described. We were not present ourselves, for after it became evident that a failure was certain, it was decided to hold the convention at an hour when "outsiders" would not be about. So, just about the time most people were at dinner, the court house bell rang vigorously, and the faithful gradually gathered. And such a gathering as there was. They were but few in number, but they came for "biz," and determined to do up their work and adjourn. It was on the principle of taking a dose of medcine-the sooner it was over the better.

When some twenty or more had assembled, our aldermanic friend, Rufe Bearden, was called to the chair. Rufe is a clever fellow and makes a capital alderman, but had on this occasion too much of an eye to business. He stated briefly the objects of the meeting, and declared it was a genuine Conservative convention, and no milk and eider thing about it. Mr. Bearden was flanked by two secretaries-Mr. J. A. Hood, of the Whin, and J. B. Howard, one For the beautiful, high-toned trio who grind at the

On motion, committee was appointed to name delegates to the district convention-two from each ward of the city, and two from each district of the county. W. L. Ledgerwood, A. Caldwell, Thos,O Couner and Bob Woods were appointed as said committee.

While the committee were out, several gentle men were asked to speak, but nary a speech could be had. Business was uppermost in every mira. There was not enthusiasm enough in the whole crowd to provoke a single word from any of the speakers present.

The committe returned and reported a long list of delegates. We haven't room for them, but among the city delegates were James R. Cocke. Thos. O Conner and Thos. A. Lewis, and from the country, Maj. D. A. Carpenter, Wm. P. Crippen, S. Anderson, W. Wilhelt, and W. Walker and others.
On metion of James Williams, Esq., it was

resolved that after the district convention adjourns next Saturday, Knox and Roane county delegates should nominate a Senator, and Knox county delegates a Representative for the next

Assembly,
The convention then adjourned. We heard of several of those present, and prominent leaders in the city, declaring it a - fizzle. Col. John Williams' friends, we understand, are dissatisfied, but do not know why. The delegates, as far as we know them, are all his friends. One of the delegates present, after the convention adjourned, was very zealous in urging upon one of our Republican friends-not the Attorney General, either-to allow his name to go before the convention Saturday, assuring him that if he did he could be nominated. This is one proof of the demoralization that has spread among the faithful. The policy of the junior cyclops has had its influence. We advise our old and staunch Democratic friend, John Williams, to look out, or next Saturday he will be thrown necessary. overboard for a good Radical.

The convention, by vote of all present, was decided a fizzle, and does not augur well for the terribly enthusiastic canvass they expected to

A " Talk " Between Two Wives.

"About a week after Thanksgiving, " writes a lady who signs her name Emma D. Ellerson, and dates her letter " Bartlett street, Brooklyn. me and my friend Mrs. A. McDaren. my next-door neighbor, had a serious talk about our husbands. Mine is a lithographic printer, and her's a nicture-frame gilder. They had both been working over-hours, and were completely broken down, rested badly, couldn't eat, and complained of sick bendache. We had heard that Plantation Blitters was firstrate h such cases ; so we sent for two bottles, and persunded our husbands to try the effort. It was ed like a charm ; and now, after taking the Bitters for four weeks, they are both so to speak like new men. Their strength and health are thoroughly recruited, appetite good, spirits cheerful, and they say they can bear twice the fatigue, without inconvenience, that they could a month ago. Thinking that the proprietors of such an excellent remedy have a right to know the good it is doing, I send you these lines.

HORRIBLE ACCIDENT.

A Little boy Bas both Dis Legs Conshed. Charlie Harris, a little boy about twelve or thirteen years of age, was at the Kentneky depot about three o'clock, and while swinginn on the platform of one of the cars, he lost his footing and fell upon the track, the wheels passing over both his legs, balow the knee, crushing the bones in a shocking nanner. The splintered bones protruded through the mangled flesh, presenting a sickening appearance. The little fellow was conscious when picked up, and asked to be turned over, when he cried out in agony, showing the intensity of his sufferings.

He was conveyed to his mothes's residence, when surgical attendance was called. It was thought best to defer amputation until this morning, when the operation will be performed. From the extent of the injuries received, his condition is considered very critical. dihood.

Charlie Harris, the little boy who was run over by the train at the Kentucky depot on Wednesday afternoon, died yesterday morning about half-past one o'clock from his injuries. He never rallied after he was hurt. His funeral took place yesterday afternoon.

Organization in Claiborne County.

A gentleman in Chilborne county writes that the Republican party in that county is thoroughly organized and at work. Each civil district has an Executive Committee. The following gentlemen are chairmen of said committees: 1st District, Howard Bowman; 2d. Benjamin Ausmus; 3d, Isaac Davis; 4th, Thos. L. Davis; 5th, A. H. Hatfield; 6th, T. C. Me-Vey; 7th, James Lane; 8th, Wm, Lovelace; 9th, John M. Wood; 10th, A. M. Jennings; 11th, James D. Mayes; 12th, G. W. Rollins. We commend the example of Claiborne to other counties. Let there be a thorough organization at once. The writer of the letter very justly concludes by saying: "You can calculate on a handsome majority for the Republican candidates in the November election.

Campbell County.

Campbell County.

We have just returned from a trip to Jacksbore. We found direuit Court in session and business being rapidly dispatched by his Honor, Judge Randolph. A number of legal gentlemen were present, attesting their devotion to the interest of their clients by making long speaches and receiving fat fees. Jumes Turner was found guilty of lareeny, and sentenced to the penitentiary for three years. He left a valuable horse to be cared for by his friends, who seemed zealously inclined that way.

Crops in Campbell look fine: in fact, were never better. A few of the citizens are selling out their possessions and going to Texas.

We found the coal interests at Can Creek and Careyville being pushed as well as can be under the circumstances. About twelve car loads per day are being shipped over the Knoxyille and Kentucky road. Mr. James Konnedy, of the firm of Kennedy & Morrow, informed us that forty car loads per day could be ret out, and that ready market for it could be lead, provided transportation could be secured over the road for that quantity.

Hands Sawed Off.

Hands Sawed Off.

A distressing accident occurred at Mr. E. Simerly's saw mill, in Carter county, last Saturday morning, in which his son, S. W. Simorly, had his left hand caught in the saw, which completely severed four fingers of the hand at the knuckle-joints, and otherwise so mangling his hand as to render amountation above the wrist

A week ago a similar accident occurred at the woolen factory of Mesors, Scott & Lewis, a young man by the name of Smith losing his right

Bitten by a Rattlesnake,

We learn that a young man while out hunting cattle near Weir's Cove in Sevier county, one night last week, was hitten on one of his toes by a cattle-neak. There was a hole in his shoe and the reptile took hold and held fast until the young man had taken several steps hefore it released its hold. He succeeded in reaching home, though whether he had assistance or not we are unable to say. Our informant did not learn his name. He is now lying in a critical condition and spacehless from the effects of the venom in his vistom

Bridge Over the Holston.

A friend suggests that the bridge to be constructed over the Holston river at Knoxville has been chartered, and pertinently asks why it is that the charter numbers returns idle and do that the chafter members records tills and do nothing toward a work that they seemed so anxious about het winter? We are of opinion that no better paying nor safer business could be gone into in this State than the building of the bridge above mentioned. From the hour of its completion it would begin to pay for its construction. In one year it would pay ten per cent, and in five would pay one hundred per cent, and in five would pay one hundred per cent annuals. The construction of such as cent, annually. The convenience of such a structure can at once by seen. Capitalists in this or any State, take notice,

Pardoned.

Five convicts were pardoned out of the poni-tentiary by the Governor on Tuesday. They were in for short terms. Lodged in Jail.

Henry Lankford was brought to this city yesterday and placed in jail. He is charged with

having killed Hess Hunt, a colored man, at Loudon, on Thursday afternoon. We are informed that a colored man. Hess Hunt, was shot at Loudon, yesterday afternoon, during the circus performance at that place. We did not learn any particulars further than that he was killed by a man from Piny, whose name we did not learn.

Scratched. Herr Lengel was slightly injured by the Bengal tiger during the performance of Amer' cirous here yesterday afternoon. He repeated the hazardous feat of entering the den at night, however, as usual.

Quick Time.

The trains on the East Tennesse, Virginia and Georgia Road can make as fast time as there is any necessity for. On Wednesday the train left this city at 3:20 r. M., and scrived at Chattaneoga at 8:00, making the run, exclusive of stoppages, in three hours and a half.

Committed. As an article of news we chronicle the committal of "one-eyed Dave Dunean on yesterday, to the care of Sheriff Gossock, until the next term of the Clinton Circuit Court.

The charge on which he was committed is that of larceny, in repeatedly entering the store of Mr. Reed, at Winter's Gap, in Anderson County, and carrying away large quantities of store goods:

Unfortunate Accident

We are inferined that Thomas Meses, a son of John L. Meses, Esq., of this city, and a teacher in the Deat and Dumb Asylum, our himself so-verely with a knife on Sunday list, at Lea's Springs. It seems that he was in an orchard. cating peaches and reading, and in attempting to get a peach a little beyond his reach, placed the book under his arm, holding his knife open in his other hand. The book slipped and fell, and he involuntarily attempted to catch it, indicting a severe though not dangerous cut in his side.

Probable Foul Play.

Robert Knauf, a tinner at Kingston, Tennessee, left Chattanooga some four weeks since for home, via Loudon. A distance of sixteen miles had to be traversed on foot before he could reach Kingston, and it is supposed by his friends that, in going through the woods on foot, he met his death. He has not been seen nor heard from since he left Chattanooga,

An Education Prec.

We call attention to the very liberal provisions of the East TennesseeUniversity and State Industrial College, whereby a free education is offered to three young men from each county on recommendation of the representatives in the Legislature. We trust that the full quota from every county will be recommended, as no doubt the would, if brought to the attention of the county representatives. The corps of Professors are competent and conscientions men and use every exertion to impart a course of thorough instruction to the pupils. Railroad Accident.

Yesterday morning the up team on the East Tennessee, Virginia and Georgis Railroad, ran off the track six miles above Knorville, near Cas-well's, precipitating four cars from the track and smashing up the track and ties pretty bad-ly and about sixty yards of the track torn up. The cars that ran off were the express, one buggage car and two passenger coaches. Yet, strange to say, not one turned over and nobody

Was burt.

Word was at once seat to this city and a wrecking car and hands sent up to repair the disaster. The passengers from Bristol were transferred at the wreck to a pecial train feat up from Knoxville and the eastern bound pas sengers took their places on the train which had just come down. It is thought that the connecsengers took their places on the train which had just come down. It is thought that the connection will be made at Chattanooga. We are informed by Mr. Hixon, the master machinist of the road, that the damages will have been repaired during the night, before this meets the eye of the reader. This caused a delay in the arrival of the mail of about two hours.
